

NAHUEL VIERA

Software Developer

*Advanced Computer Science student focused on **Backend and Full-Stack** development using **.NET** and modern web technologies (**Next.js**, **Angular**, and **React**). Experience building **REST APIs**, **SaaS** platforms, and scalable applications through personal projects focused on software architecture, service integration, and digital product development.*

PROJECTS

BUSCALÓ LOCAL BUSINESS DISCOVERY SAAS PLATFORM Next.js 16 • React 19 • TypeScript • Supabase • PostgreSQL • Tailwind CSS buscalo.uy/ - Developed a SaaS platform connecting users with local businesses and service providers through public profiles, analytics, and membership plans. - Implemented authentication and security using Supabase Auth and PostgreSQL Row Level Security (RLS). - Built an administrative dashboard, conversion analytics, and automated notification workflows using Resend and external APIs. - Optimized SEO and application performance using a server-first architecture with Next.js App Router and Server Components.	2026
TRACKLASS PRIVATE TUTORING MANAGEMENT PLATFORM .NET 8 • PostgreSQL • Angular 20 • Angular Material tracklass-five.vercel.app/dashboard - Developed a full-stack application for managing students, classes, payments, and activity tracking. - Built administrative dashboards and financial management features using PostgreSQL and .NET 8 REST APIs. - Integrated WhatsApp API and PDF/Excel report generation to streamline administrative workflows. - Designed a responsive user interface using Angular Material and a layered architecture approach.	2026
E-COMMERCE MICROSERVICES DISTRIBUTED E-COMMERCE PLATFORM .NET 10 • Microservices • YARP • Docker • PostgreSQL ecommerce-microservices-ow4d.onrender.com/ - Designed a microservices ecosystem with YARP API Gateway and JWT-based authentication. - Implemented inter-service communication using the Saga Pattern and role-based access control (RBAC). - Optimized deployment and resource consumption using Docker, PostgreSQL, and automated testing with xUnit.	2026

SKILLS

- Backend:** ASP.NET Core, Entity Framework Core, REST APIs
 - Frontend:** Angular, React, Next.js, HTML5, CSS3, Tailwind CSS, Angular Material
 - Programming Languages:** C#, TypeScript, JavaScript
- Databases:** SQL Server, PostgreSQL
 - Testing:** xUnit, Moq, Unit Testing, Integration Testing
 - DevOps & Tools:** Git, Docker, Azure (Basic), Vercel, Render, Supabase

EDUCATION

BACHELOR'S DEGREE IN COMPUTER SCIENCE (IN PROGRESS) Universidad de la Empresa (UDE) Thesis in progress. Additional Training: Foundational C# with Microsoft (freeCodeCamp)	2022 – Present
